

# Supergate® III

1 Supergate® III comes as a pressure gate for immediate mounting to doorways.

Model 8615

2 Unique door sockets give pressure mounted Supergate® III extra holding power in doorways and openings.

3 Specially-designed North States rail sockets allow Supergate® III to be used between wrought iron railings.

4 Use Supergate® III as a swing gate (hardware included for easy hinge mounting).

5 Using sockets, Supergate® III can be used between a wall and a wrought iron railing.

## Versatile Gate Can Be Used 5 Ways!

- Deluxe gate adjusts easily to doorways 26" to 42" wide.
- Easy to use—expand gate in opening and engage pressure handle in any one of the multi-position slots.
- Rounded edges will not pinch.
- Supergate® III is 26" high.
- Perfect for pets too.
- Packaged one per full color carton.
