NOTE: Extensions can be used to extend the gate to a width of 126.375".
The maximum number of extensions that can be used with this gate is three.

Installation and Operation

Step 1: Measure the width of the opening where you intend to install the gate. Please refer to the chart below to determine the correct installation configuration.

Step 2: To add extension (on the side with the gate latch only), remove both the Upper and Lower Corner Sockets. Slide the extension into the gate. Reinsert both the Upper and Lower Corner Sockets into the gate extension. Set up the gate in the opening in accordance with the gate instructions.
