#### Step 1:

Remove one vertical bar by twisting clockwise then pushing down while pulling out.

#### Step 2:

Separate the two panels.

#### Step 3:

Next, remove the vertical bar at the end of the extension panel (as instructed in step 1).

#### Step 4:

To connect the end sections, lift one panel allowing the upper and lower hinge housings to slip into place in the mating panel.

#### Step 5:

Insert the vertical bar into recess of lower hinge mount. Press down and slide it into the upper hinge.

#### Step 6:

Adjust the sections as needed. Tighten each top hinge counter-clockwise to lock in place.
