Installation and Operation

Step 1: Measure the width of the opening where you intend to install the gate. Please refer to the chart below to determine the correct installation configuration.

Step 2: To add an extension to the gate, insert the extension pins into the holes on the outside of the gate frame. Note: the long ends of the pins go into the gate frame, while the short ends go into the long ends of the extension frames. Next, slip the extension over the pins. Finally, slide the tension bolts with rubber pads completely into the holes on the outside of the extension. **NOTE:** For use with model # 4910S, 4991, 4991S. When using multiple extensions, place as equally as possible on either side of the gate frame. Three extensions maximum.

### Extensions Needed | Opening Size Range
--- | ---
None | 28.37” – 30.75”
2-Bar | 31.9” – 34.25”
2-Bar + 2-Bar | 35.4” – 37.75”
