

northstates  
**mypet**® extra-wide wire mesh petgate

4614A

### Installation Instructions:

No Tools Required

- 1 Measure the width of the opening where the gate will be used.
- 2 While holding the gate with the locking bar toward you (numbers will be upright), lift the locking bar and slide the locking pin into the slot that matches the opening size.
- 3 Push down on the locking bar. This should put pressure on the 4 rubber bumpers holding the gate in place. If the gate is loose in the opening, move the locking pin to the next slot until you get a good solid fit in the opening. Do not force the locking bar down. This could put too much pressure on the gate, causing damage to your opening, the gate or both. (The locking bar will have a slight bow. However, if the bow is large, ease off one slot, making sure it still has a good solid hold in the opening.)

- 4 To open the gate, simply pull up on the locking bar.

Expands from 29.5" to 50"  
(74.9 cm to 127 cm)

One pre-assembled gate.

### Care and maintenance:

To clean: Wipe with a clean, soft, damp cloth and dry thoroughly. Do not use harsh or abrasive cleaners. Always keep the rubber bumpers clean.

Assembled in USA

### ! WARNING

- **STOP** using when a pet can climb over or dislodge the gate.
- Install only with locking/latching mechanism securely engaged on side away from pet.
- To prevent falls, **NEVER** use at top of stairs.
- This product will not necessarily prevent all accidents.
- Periodically check all fasteners to be sure they are tight and secure, stop using gate if any parts are missing or become damaged.

### ! ADVERTENCIA

- **DEJE** de usarla cuando un mascota pueda trepar sobre la puerta o desprenderla.
- Instálela solamente con el mecanismo de cierre / traba activado firmemente en el lado opuesto al mascota.
- Para evitar caídas, **NUNCA** utilice la puerta en la parte superior de las escaleras.
- Este producto no previene necesariamente todo tipe de accidentes.
- Revisar periódicamente todos los afianzadores para asegurarse de que estén apretados y firmes, dejar de usar esta barrera si falta cualquier pieza o si se daña.
